RICOH IM 2702

Intelligent and reliable

Bringing new intelligence to your document processes, this A3 black and white MFP has a colour touchscreen panel that simplifies operation and supports cloud integration.

Intelligent workflow tools

- Intuitive user interface
- Downloadable Smart apps
- Cloud integration
- Smartphone connection

The Smart Operation Panel plays host to a suite of intelligent workflow tools. Downloadable apps, such as ID Card Copy, automate time-consuming processes. Users can connect seamlessly to the MFP and print from / scan to their smartphones and tablets. And, with easy cloud integration, they can scan documents and upload them to cloud services, like DropBox™ and Sharepoint™.

Versatile and productive

- Fast 27 ppm print speed
- High capacity ARDF
- A6 to A3 paper formats
- 1600 sheet max capacity

Designed for use in demanding environments, the IM 2702 delivers robust performance with minimal support. Localisation is easy as the MFP supports a variety of languages, including Arabic. And, with pre-set developer and a user replaceable photo conductor unit, it can easily be installed and maintained by local staff. What is more, to ensure a fast return on the initial cost, the MFP's smart energy saving features and high yield toner cartridges reduce running costs.

The IM 2702 provides a versatile and productive answer to all document needs. It prints and copies in black and white, and scans in colour. Fax is an option. The ARDF quickly scans double-sided originals and multipage documents are printed at speed. With up to three 500 sheet paper trays and a multi-sheet bypass on line, it is easy to print onto different paper sizes or to feed envelopes and labels. And, with the MFP switching seamlessly between trays, there really is no need to stop.
